

Talkin' Green

There has been a lot of talk about Green Power recently. At Riverside Public Utilities we have a strong commitment to utilizing more renewable energy resources such as solar, wind, and geothermal power.

2007 First Quarter Projected Purchases

POWER CONTENT LABEL

ENERGY RESOURCES	RIVERSIDE Public Utilities* (projected)	2005 CA POWER MIX** (for comparison)
Eligible Renewable	10%	5%
-Biomass and Waste	1%	<1%
-Geothermal	7%	4%
-Small Hydroelectric	3%	1%
-Solar	<1%	<1%
-Wind	<1%	<1%
Coal	66%	38%
Large Hydroelectric	3%	24%
Natural Gas	2%	33%
Nuclear	17%	0%
Other	<1%	0%
TOTAL	100%	100%

* 93% of Riverside Public Utilities System Mix is specifically purchased from individual suppliers.

** Percentages are estimated annually by the California Energy Commission based on electricity sold to California consumers during the previous year.

For detailed information about our electricity products, contact Riverside Public Utilities at (951) 351-6322. For general information about the Power Content label, contact the California Energy Commission at 1-800-555-7794 or www.energy.ca.gov/sb1305.

Utilities seeks to increase our Green Power portfolio so that we not only meet, but surpass the state mandated goal of being 20 percent Green by the year 2010.

To learn more about our Green Power commitments, and learn more about the Power Content Label, visit us online at www.riversidepublicutilities.com.

The Power Content Label is printed quarterly to help keep our customers informed of the various resources that are used to make up Riverside's electric power supply. And what you'll notice is our Eligible Renewable, or Green Power number keeps increasing.

Currently, Green Power makes up 10 percent of our total power mix. While that may not sound like much, it puts Riverside way ahead of other municipal utilities in Southern California. In fact Riverside has up to 6 times more Green Power resources than other municipal utilities.

You read that right, up to six times more! And we're not stopping there. Riverside Public

do you know...

You can reduce your energy bills and receive great rebates for installing solar electric systems at your home! New solar, or photovoltaic, systems can convert the sun directly into energy and create savings that go directly in your pocket!
